OBJECTIVE

To work as a fullstack developer.

SUMMARY

Professional with over 20 years of experience in technology, with vast experience in web software development, focusing on backend development with Java (Java EE and Spring) and Javascript (Express), and frontend development with Javascript (React and NextJS). I have a preference for positions with flexible hours.

SKILLS

- Java, Spring, JavaScript, React, Next.js, MUI, Angular, Django, HTML, CSS
- MySQL, PostgreSQL, Oracle, MongoDB
- Docker, Jupyter Labs, Pandas
- Portuguese: Fluent
- English: Intermediate level (B1)

PROFESSIONAL EXPERIENCE

Fullstack Developer | Conddiz | Mar/22 - Aug/22 (temporary)

- Worked as a fullstack developer on temporary projects focused on promoting an electoral campaign, with main activities being analysis and development of systems with Strapi backend, React, NextJS, and MUI frontend, creation and refactoring of components, problem resolution, and implementation of gamification elements. Also responsible for integrating new team members.

Software Architect | Digidados | Feb/15 - Sep/16

- Worked as a software architect, with main responsibilities being the development of system architecture and modules, focusing on Java technologies and Spring ecosystem (Spring Boot, Framework, Data, Security), Angular, and MySQL database. In addition to technical work, I focused on coordinating and developing a team of 4 developers.

Senior Java Developer | Sankhya | Nov/13 - Jan/15

- Worked as a developer, focusing on Java backend development, working on system development and support for test automation using technologies such as Java, Guice, and JUnit, working on projects conducted in an agile model.

Senior Backend Developer | TQI | Oct/11 - Oct/12

- Worked with a focus on system architecture, allocated at the Buscapé client and internal TQI projects, using technologies such as Java (SE and EE), Spring ecosystem, PHP, HTML, MySQL, Oracle, and JQuery.

Systems Analyst | Everis | Jul/09 - Jul/11

- Worked as a systems analyst, working with technologies such as Java (SE and EE), Struts, JSF, JSP, HTML, Javascript, JDBC, Oracle, MySQL, and PL/SQL.

(...)

ADDITIONAL EXPERIENCE

Tech Community Leader | UAIJUG - Jul/09 - Oct/18

- Worked as the leader of the Java Users Group of Triângulo Mineiro, participating and organizing events, lectures, and courses aimed at promoting the Java ecosystem in the region.
